MINERS TO ASK
DISSOLUTION OF
COURT'S ORDERMotion Will Be Filed Today
In Federal Court at
Indianapolis.WASHINGTON OFFICIALS SAY
CONSUMERS WILL GET COALSupply Is Controlled Merely
To Assure Equitable
Distribution.

Indianapolis, Nov. 6.—Attorneys for the United Mine Workers of America, some time today will file a motion in federal court for dissolution of the restraining order to prevent officials of the union from issuing instructions to the striking miners, it was learned today. The officials were in conference this morning with their attorneys, and it is understood have completed the writing of the motion.

Such motion, it was announced as a rule, must be filed two days in advance of the arguments. The holding of the governments petition for a temporary restraining order has been set for Saturday and today is the last day for filing motions in the case.

PLANES MAY BE USED
IN COAL REGIONS

Charleston, W. Va., Nov. 6.—Disposition of federal troops in the West Virginia coal fields was completed today, and the military authorities were in position to "cope with any situation which might arise," said Adjutant General Thomas Davis who has been cooperating with Colonel W. F. Harrell, commanding the soldiers.

It was said a signal company was being sent into the mountains separating the union region from the unorganized Guyan field. While no authoritative statement was made, it was declared the men were equipped with full wireless outfit and would be reinforced by airplanes for patrol duty. Federal troops in the state are believed to number about 1600.

MINERS ARE RETURNING
TO KENTUCKY MINES

Lexington, Ky., Nov. 6.—A test of strength of miners and strikers in the coal fields of eastern Kentucky is expected today. Many miners, it is asserted, some miners are returning to work. Governor Black is being kept advised of the situation.

COAL PRODUCTION IN
WEST VIRGINIA INCREASES

Washington, Nov. 6.—Information in the hands of government officials in touch with the strike situation today indicated an increase in bituminous coal production, especially in the West Virginia fields. A further defection of union forces from the strike today, morning reports showed, although officials were not able to say whether the break in the union ranks was increasing to any extent. This phrase of the situation is being watched closely by the government departments, particularly the railroad administration and department of justice.

Director General Hines reiterated today that no community need fear that it would be cut entirely from fuel supplies so long as the stocks under supervision of the railroad administration lasts. He declared the primary purpose of the machinery set up by his office was to insure the conservation of coal stocks in one section to the detriment of another.

Railroad administration officials refused to accept seriously published reports of traffic congestion in some of the larger terminals. Members of the press last night and again today examined Director General's staff were in conference with railroad officials, and they said, "No official, however, would venture a prediction as to the traffic problem of the next two weeks should the strike continue that long."

SAYS LEWIS HAS NO
AUTHORITY TO END STRIKE

Springfield, Ill., Nov. 6.—Frank Farrington, chairman of the miners' senate committee, expressed the opinion today that John L. Lewis, acting president of the United Mine Workers of America, would not have authority to call off the strike of soft coal miners even though directed to do so by court mandate. Washington dispatches suggested this might be done.

"My opinion is that Lewis would be without authority to rescind the strike order for the reason that he did not order the strike," Farrington declared. "The strike was ordered by 2,200 or more miners delegates who attended the Cleveland convention of mine workers and Lewis is only the mouth piece through whom the order of the convention was transmitted to the membership."

Over Debate on Docu-
ment.

Washington, Nov. 6.—An immediate vote on the ratification of the treaty of Versailles without reservation was proposed in the senate late today by Senator Underwood, Democrat, Alabama, after Republican Leader Lodge had challenged the administration to make a move. Senator Hitchcock, of Nebraska, the administration leader, interfered before the question was put and a long argument ensued.

Senator Underwood's proposal followed discussion of parliamentary procedure which was attended by great confusion. Half a dozen senators frequently sought to speak at the same time and Vice President Marshall was kept busy hanging his gavel for order. Senator Hitchcock accepted the challenge of Senator Lodge and made a motion that the senate ratify the treaty without reservation. He then demanded a roll call.

Instead of proceeding to vote on Senator Hitchcock's motion, the senate reserved ratification of the treaty revived discussion on another proposal by Senator Hitchcock to report the treaty immediately from the committee of the whole in order to consider resolutions of ratification.

to Note Approach of Car
and Is Killed.

Raymond Schissler, aged 16 years, a school boy, was killed at Wagram, near Reynoldsburg, this morning about 8:30 o'clock when he was struck by an Ohio Electric Limited. The boy, with two chums, Lawrence Pickney and Russell Quinn, was playing shinney in the middle of the street. Schissler, knocked off the car and it landed beside the car track out of bounds. He ran to where it lay, and as he stooped to pick it up the car passed, and the action is said to have drawn him under.

The iron steps struck the boy's head and the skull was crushed, the right arm was severed, the left one broken and the body heavily lacerated and bruised, stated Coroner Richards, when he returned from Wagram at noon today.

The street car was in charge of Conductor Williams and 2nd National Bank, which did not even know that the boy had been struck until they reached the Columbus office.

C. M. Wynancaner, undertaker at Reynoldsburg, took the body to the boy's home a mile south of Wagram.

WILHELM'S PHYSICIAN

Amerongen, Holland, Oct. 20.—The suite of the former German emperor at Amerongen has been reduced by five persons as a result of the departure recently for Berlin of his private physician, Dr. Foerster and family, who had been at Amerongen many months. It is the gossip of the village that Dr. Foerster found it impossible to support his family on the meagre salary, in German marks paid by the former emperor, and that he has returned to general practice in Berlin. A military surgeon, Dr. Jenner, has arrived from Berlin to serve temporarily at Benthik castle.

Mayor H. A. Atherton will succeed himself and of course will have no new plans further than to continue to give the city a good, clean, business-like administration as he has done in the past.

Cliff Frye, newly elected city auditor, is the cashier of the National Bank, which will be loath to part with his services, as the auditor's office demands the entire time and attention of the auditor. The bank has not as yet, of course, arranged for a successor but will have two months in which to do so.

Roy E. Marvin, newly elected city treasurer, is at present employed at the Licking County Bank and Trust company and will administer his official affairs from that institution.

City Solicitor Henry C. Ashcraft has his office in the Trust building and succeeding himself in office will continue to conduct the affairs of the city, which demand his attention from that office.

CORE AMENDMENT
IS VOTED DOWN

Senate Doesn't Approve of
Popular Vote on Questions
of Declaration of War.

Washington, Nov. 6.—The peace treaty amendment presented by Senator Gore, Democrat, Oklahoma, to make an advisory popular vote mandatory before any declaration of war under the League of Nations, was rejected today by the senate.

The vote was 67 to 16. Republican leaders, Lodge and other leading Republicans voting against the amendment.

When the treaty was taken up in the senate today Senator Knox, Republican, Pennsylvania, introduced a blanket reservation to release the United States from any obligation to be bound by decisions or recommendations of the League of Nations. Senator Knox said the purpose was to make this country a "counseling member" of the league. This reservation would give the United States "the fullest and most complete liberty of action" in regard to league affairs, with "the sole right to determine its own relations and duties and course of action."

It also would claim an unconditional right of withdrawal, and would make ratification of the treaty dependent on affirmative acceptance of the reservation by the other powers within 60 days.

President Wilson's opinion on reservations to the treaty of Versailles will be given to Senator Hitchcock of Nebraska, the administration leader, at a White House conference within the next day or two.

Mr. Wilson has repeatedly said that he was arranging with Rear Admiral Grayson, the president's physician, for Mr. Hitchcock's visit. The Nebraska senator plans to lay the entire treaty before the president, to present and to give his opinions as to what reservations are likely to receive the support of the majority in the senate. The president in turn will say what reservations will be acceptable to him.

E. church at Johnstown, the interest of which is to be used towards paying the pastor's salary for the next twenty years after which it reverts absolutely to the church.

Two brother-in-law, John A. and Frank C. Jones, are given \$5,500 each and a sister-in-law, Mrs. Rhoda Ruggs of this city, is given \$5,000. A bequest of \$2,000 is also made to foreign missions. CRABBE BILL IS
PROBABLY LOST;
OTHERS MAY WIN

Returns Indicate Close Vote
On Enforcement Act
and Ratification.

MOST OF COUNTIES NOT
HEARD FROM ARE DRY

Probable That Wet Lead on
Crabbie Act Can Not
Be Overcome.

Columbus, Nov. 6.—Returns from Tuesday's election compiled at the secretary of state's office today from 55 of the 88 counties indicate that the returns on the ratification of the federal prohibition amendment and the Crabbie prohibition enforcement bill will be close with chances favoring the drys on the ratification proposition and the wets on the Crabbie bill, according to Chief Statistician Johnson. The same returns are said to indicate defeat of the 2.75 per cent beer proposal and also that to repeal of the prohibition amendment.

These 55 counties, 33 of which are complete and 22 incomplete, give the wets a lead of 38,031 on ratification of the federal amendment and 52,410 on the Crabbie bill. They also give the wets a lead of 22,999 on the two and three quarters proposal and 12,323 on the repeal proposition. The 33 counties still to report have a dry majority of 33,795 for prohibition last year and if this majority was maintained last Tuesday, it would indicate defeat of both the two and three quarters and the repeal proposals by safe majorities it is said.

On this showing also, the ratification proposal would be approved by a small margin, it is said.

An encouraging indication for the drys is the fact that in the 22 counties incomplete, which have not yet reported, there are 255 precincts still missing. All these counties, on the partial returns made, gave dry majorities of an average of approximately 30 to a precinct. If this majority is maintained, the precincts yet to report from those counties wet leads would be reduced by about 7,500 which should give the wets a lead of about an even break on the ratification proposition. At the secretary of state's office it is believed that the wet lead on the Crabbie bill cannot be overcome, though it is admitted that the result cannot be ascertained with certainty until complete returns are in.

Of the 33 counties from which no returns have been received Lucas alone is expected to give a substantial wet majority on all proposals. Summit county gave a dry majority of 5,000 last year has not been reported.

On the ratification of the federal amendment proposals it is said that the official count may be necessary to decide the results.

MORE AMENDMENTS
OFFERED FOR TREATY

Washington, Nov. 6.—Instead of clearing away all amendments to the peace treaty and being free to consider reservations, the senate today found more amendments before it than on yesterday.

Senator Borah, Republican, Idaho, had ready two new amendments which would provide that the United States decline to be bound by Articles 10 and 11 of the League of Nations amendment, calling for an advisory vote of the people before declaration of war, also remained for final action.

SOCIAL PROGRAM PLANNED BY Y FOR INDUSTRIES

Committee Approves Sug- gestion For Family Gath- erings To Be Held During Winter Months.

At the meeting last night at the Y. M. C. A., service committees from seven plants were present. The industrial program as outlined by Industrial Secretary Grieser was discussed in detail and approved by the various factory representatives. The men again expressed themselves on the success of the Twilight baseball league of the past summer and are very much in favor of keeping up shop interest all the year around.

The immediate interest is in the coming Industrial basketball league. Captains and managers of the teams will meet next Wednesday night at 7:30 at the Y. M. C. A. and set up the rules and the schedule and other details to put the league in motion before the end of the month. The league can draw from four to 12 teams, and of course the number of times each team plays the others will depend on the number of teams there are in the league. It is the intention to have the league during the last week in November and close about April 1.

Now that the noon-hour recreation

has closed its schedule, shop meetings of religious and educational nature will take its place. Each factory will have one meeting each week, the day of the meeting and the time of the meeting to be the same from week to week. A definite program is not yet ready for announcement but will be within a few weeks.

The social program was met when each committee agreed to send out the best talent in their shop and have a family night for their shop men at the Y. M. C. A. at which time the shop talent will have a large place on the program. In order that the committees should have ample time to change their program, tentative dates have been set for the family shop night. During the past year the Burke Gole company and the A. P. Hess Auto company had a family night at the Y. M. C. A. and each declared it a success. Similar programs will be worked up by the other plants.

Following the meeting last night of the service committees the men inspected the Y building and then played a game of volleyball in the gym. The men were in favor of having service committee meetings frequently to get better acquainted with each other. Following up this suggestion Grieser has invited all the members of the Service Committees to come to the Y. M. C. A. amnasium next Wednesday night where a program of games will be played after the basketball meeting.

DOCK STRIKE ENDS.

New York, Nov. 6.—The strike of 40,000 longshoremen, which has tied up port activities here for several weeks, appeared to have been ended today.

The factor was the surrender of the "insurgent strikers" who promised Mayor Hylan yesterday they would return today to the old rate of pay, pending a decision from the national adjustment commission for a rehearing.

POINCARÉ VISITS ENGLAND.

London, Nov. 6.—When President Poincaré and Madame Poincaré visit England November 10 for a four days' sojourn they will be the guests of the king and queen at Buckingham palace. During his visit the president will be installed as Lord Rector of Glasgow university.

WOULD BOOST COTTON PRICE.

C., Nov. 6.—A movement to retire two million bales of cotton from the market in an effort to force a rise in prices has been launched by the American Cotton association, a growers' organization, according to a statement issued here by its president, J. S. Wannamaker, who last night said a recommendation to this effect had been sent members of the association.

CANT FIND TAR PARTY.

Hamilton, Nov. 6.—The Butler county grand jury made a report on the tarring and whipping of John E. Steiner, Socialist leader, recently. The report reads that it was unable to ascertain who participated or who were instigators of the offense.

Card of Thanks.

I desire to thank my many warm friends who supported me in my candidacy for the office of president of the council. It was with some hesitancy I decided to be a candidate for the nomination as my business demands almost my entire time and attention. Now that my opponent for the office has unbounded success in presiding over the city's legislative body, I trust that the many problems with which the city is confronted at the present time will be satisfactorily solved in the best interest of our citizenry and tax payers.

600 MILLIONS WILL BE SPENT FOR ROADS

Washington, Nov. 6.—More than \$600,000,000 is available in the United States for construction of hard surface roads in 1920, according to a statement today by the department of agriculture. This sum is more than four times the amount estimated for 1919. Expenditure of the fund, the department announced, is dependent only on the ability of the railroads to furnish enough cars to transport material.

The department will institute a national drive to influence purchase and storage of road building material during the winter months and to overcome the open-top car shortage.

HANOVER BRIDGE IS MOVED SIX FEET

The bridge over the Rocky Fork river in the village of Hanover is being moved six feet to the south today in order to line up with the new pike which is being built through the village connecting with the east and west ends of the Newark-Hanover pike. If the weather does not interfere the pike will be completed by the end of the present month. It is being built under the supervision of County Superintendent of Highways Clyde W. Irwin.

SALE OF RIPE OLIVES STOPPED BY ORDER

Upon instructions from the state board of health, Health Officer W. H. Knates today issued orders to Newark merchants to cease selling a certain brand of ripe olives. The state officials found, it is said, that cases of poisoning have resulted from the use of these olives and pending further investigation into the matter, the sale of the product was ordered stopped.

DOES NOT APPROVE OF MINSTREL SHOW

"My name is being used without my consent in connection with the minstrel show to be given Friday night," said Rev. B. M. O'Boyle in a statement made this afternoon. "I know nothing about the show other than that it is being given by a number of young women," he continued. "They are doing so without my approval. My reasons will be stated later."

CLEMENCEAU DEMANDS MINISTER'S RESIGNATION

Paris, Nov. 6.—(Havas).—Premier Clemenceau this morning summoned to his offices Albert Lebrun, the minister of blockade and invaded regions and demanded the minister's resignation. The premier afterwards received Andre Tardieu, head of the general commission for Franco-American war matters and sounded him on his willingness to be Lebrun's successor.

Mr. Lebrun is running for election as a deputy from Muerthe and Moselle on the same ticket with Deputy Louis Marin, who cast his vote against the peace treaty on the question of ratification by the chamber of deputies. Mr. Clemenceau told the minister that he could not permit a member of the Clemenceau cabinet to ignore on the same list with a peace treaty opponent.

ON BUSINESS PRINCIPLES.

A prudent man will regulate his expenses by his income. If he receives \$1,000 a year, that is the measure of his expenditures. How differently this city regulates its affairs! It will ascertain what its revenue is and then spend all the money it wants to do obedience to the demands of its reckless public service. It does not seem to care what its income is—all it wants is that there should be no limit to its income. And still they think that they are doing business on business principles and that the difficulties in the economic situation cannot be helped. There is the trouble in a reckless conduct of public affairs. These officials think they can spend \$100 when there is not a dollar in sight. This city could be administered faithfully, honestly, completely, if it did not spend a dollar more than its revenues amounted to. The spenders do not seem to care for the revenues, but go helter-skelter spending money, as if the sources of revenue knew no limits. Now this thing should stop. The city has no business to spend any more money than in the public treasury. It is a disgrace to the people to do it.

The foregoing editorial paragraph appeared in this morning's Ohio State Journal. Of course it applies to the city of Columbus but unquestionably it might be applied to other Ohio cities as well.

There is however another angle to the situation and that is the public's responsibility in the matter. Take for example the initiative ordinance to inaugurate the double platoon system in the Newark fire department, a proposition that received a two to one endorsement at the polls last Tuesday.

The Advocate stated during the campaign that there was but one possible objection to the measure and that is the added expense that it puts upon the city. The increase in the fire department will cost \$25,000 a year and the fact is the city is required to borrow money to pay for the upkeep of the department for the remainder of this year. What is to happen next year? How long can the city go on spending more money than it receives? How long can any business continue if the outgo exceeds the income?

Nobody criticizes the firemen for desiring relief from continuous service and the heavy vote recorded in favor of the firemen's bill shows that the public is in sympathy with them. But that isn't the question. How is Newark to pay the bill? Can economies be effected in the department to help make up the deficiency?

No private business can continue unless the receipts are greater than the expenditures and the same thing is true of a municipality. The only difference is that in one case the thing may be prolonged. The administration will have a problem to solve the coming year the problem of trying to make Newark do the work of two.

Now the boy who didn't know headed turns up, but it would be a pity if he would not learn at himself instead of at

Believe the current story of the nut crop these soap box orators.

LABOR NEGOTIATION

Some pessimists feel much disheartened by the adjournment of the Labor Conference without accomplishing anything. Yet to adjust the underlying cause of social friction and remove sources of unrest active for many years, was no matter to be accomplished in a fortnight's time. It will take long study of the essential principles involved. Public pressure will have to be brought on the separate groups at points where they are unreasonable. Clear, definite and reasonable programs will have to be formulated by disinterested parties.

A problem so very difficult and into so much human passion enters, is not settled off hand. It may be the work of years. It was a great step to get the various elements together and get them to present their ideas in tangible form. It gives some definite material to work on, and another time more results may be secured.

HOME TOWN FEELING.

To get anything done in this world, you must have team work. If the player in a football eleven is concerned merely in seeing how far he individually can kick the ball, and giving a display of his prowess as a kicker, that will make the grand stand yell, he will never do anything for his team. He has got to learn to fit into the machine and do whatever needs to be done. Perhaps the most he can do is to make a little pass of a single yard that no spectator will ever see, but it may make possible a winning run.

So in any community life. The whole population of Newark has got to unite in a combined effort to accomplish public ends. The towns that go ahead are those in which the workers are ready to take hold and work in one combined movement, and in which the people who do not feel they can take prominent parts, are at least willing to co-operate with and shout for whatever is being done.

GERMANY'S DEBT.

(Cleveland Plain Dealer)

Germany is in a bad way financially. A representative of the new government at Berlin says it will cost as much to wind up the war as it did to conduct it during four years and more debt already reaches 12,000,000,000 marks, against only 5,000,000,000 marks to the war and financial authorities claim the debt will have increased to 20,000,000,000 marks by April.

Under normal conditions the mark represents 24 cents in United States money, which would mean that the German debt by next spring would be approximately \$55,000,000,000. The fact that the existing low rate of exchange results in the German mark being exceptionally cheap in this country, ranging between 4 and 5 cents, in no way makes Germany's burden less heavy.

When compared with American war expense of about \$30,000,000,000, the figures announced by Germany will hardly seem adequate punishment for the harm she did. But to the German people it is staggering. Loss in man power, ocean tonnage, international commerce and foreign territorial possessions also must be taken into consideration. These may all be charged up against the war. Although the present government has announced plans to tax the citizens as high as they can stand in order to meet its obligations under the peace treaty, the burden of the country's momentous war debt will hang over the people for generations.

ANOTHER DEFEAT FOR "HI."

(Philadelphia Record)

So "HI" Johnson has been beaten again, this time by a vote of 40 to 33, on his amendment to the peace treaty giving the United States the same voting strength as Great Britain and her dominions in the Council of the League of Nations. The vote was too close to be creditable to the Senate, and again revealed the severe division on the treaty among the Republicans. Nine voted with the Democrats and only two of the latter were recreant to their duty.

This amendment has generally been regarded as the strongest that could be proposed, because it sought to take advantage of an inequality that is only apparent, not real. The United States has in fact the same voting strength as Great Britain, as has been demonstrated a thousand times. It was just a bit of Johnsonian demagoguery that raised the issue.

"HI" and the bitter-enders have been beaten at every point, and their grief must be poignant indeed. Why can't they turn in now and ratify the treaty as the American people want them to, without reservations or changes that will lead to further delay?

SUSTAINING THE LAW.

(Ohio State Journal)

The government does not intend to prohibit strikes, but only to protect the people and the property while the strike is in progress. This is a plain issue. It makes the law supreme over disorder and crime. The people cannot and will not submit to the violation of law to promote any cause. Once grant the proposition that any class may violate the law for its own benefit and this republic ends its career. The law must protect itself and must allow no one to violate it. That doctrine stands during strikes as well as during times of industrial quiet. There is no doctrine of government that permits one set of men to infringe upon the rights of others. The government is above all causes and it must be honored before anything else. The whole people wants the main punisher who breaks the law for his own self-interest.

That Teneriffe is the highest summit in the Canary Islands? It is a dormant volcano and is 12,132 feet above sea level. The Peak of Teneriffe and two mountains of lesser height rise from a rugged circular plain of lava debris and pumice 7,000 feet above sea-level; this plain is about eight miles in diameter and is fenced in on all sides by a wall of rock. Sulphurous vapors are constantly exhaling from the crevices of these mountains.

**HIGH SCHOOL OPENS
NOONDAY CAFETERIA**
The lunch room or cafeteria at the Newark High school which has been under preparation since the beginning of the school year, was opened to the pupils yesterday.

It is conducted by the domestic science department of which Miss Clark is the instructor. Yesterday about 150 students were served at the noon hour. It is the plan to serve the lunch at cost. Yesterday hot chocolate was sold for 5 cents, sandwiches and soups were also 5 cents. Many of the students living at a distance have been compelled to carry cold lunches or eat down town, and the cafeteria was arranged for them.

"MARRIED STRANGERS" STARTS NOV. 17TH.

Frances Duvall's new story "Married Strangers" of compelling interest to men and women alike will appear in this newspaper. The Advocate has just purchased the right of publication which will begin with the issue of November 17th.

A girl, young, independent, impulsive, thrilling with life and romance of war meets a newly-made young officer and marries him after a whirlwind courtship. There is a three-day honeymoon and he sails for France. Sustained by the tonic of patriotism of flying flags and crashing bands and long olive drab columns marching away to face death on the battlefields of France, she loves him unquestionably through his two years' absence. Then he returns, a stranger. Tastes, training habits, the slow steps to understanding over which they had leaped with youthful arrogance rear ugly heads. How they solved their problems and reached the basis on which a real marriage is founded constitute the story.

"Married Strangers" is by the same author who wrote "The Adventures of a Married Fillet."

Watch for the opening chapter on Monday, November 17th. This attractive story will be presented in short installments from day to day beginning one week from next Monday.

Edna Catharine Wolfe.
Edna Catharine Wolfe, beloved daughter of L. C. and Alice Wolfe, was born July 1, 1907 and died October 29, 1919, aged 12 years, 3 months and 29 days. A dear little life has gone out. Twelve years she was spared to us and what joy and gladness she brought into our homes. Each year she grew dearer to our hearts. Her sweet and sunny disposition endeared her to all who knew her. And lo, a voice from heaven called "Come unto me" and she sweetly fell asleep. But oh, the heartaches, the wishing and longing to see her again, but oh, what joy, what rapture when we meet again.

Up yonder at the portals,
That are shining very fair,
Little Edna now is sheltered,
By the Saviour's loving care.

Granville voted dry on Tuesday, as she has voted during many years past. It has been as dry as Sahara since the first day of local option and it has been easy to locate the occasional oases in the desert to which the thirsty have always resorted, with a wary eye on the mayor. The late Dr. R. S. Colwell while mayor of the village waged unrelenting war against the liquor traffic in the college town.

MACK'S TEAM TO MEET B. & O.

Much Discussed Contest For Local Grid Honors Will Be Played Sunday Afternoon at 2:30.

The long talked-of game between the McDaniel team and the B. & O. football team will be played Sunday at either Mountbuilders park or Welch park, according to announcement made yesterday.

There was some discussion of the personnel of the two teams, the suggestion being made that each team confine its active players to strictly Newark residents but this was not agreed to. McDaniel's suggestion that the losing team withdrawn from football activities for the rest of the season was not accepted.

Each manager furnished a list of his players which will not be deviated from without mutual consent.

The game will be played Sunday afternoon at 2:30 o'clock. It will be the most important game in Newark this season with the exception of the Denison-Kenyon game which will be played at White athletic field.

Supporters of both teams are on edge for the contest and with good weather the season's record crowd will no doubt be present.

Oscar Burton Hagerman, 18, enlisted today in the aviation branch of the service and left at noon for Parkersburg. He lives in South Second street.

The navy offers an opportunity for young men who wish to travel and they will not have to pay any bills. By enlisting for two years a man can be sent to any training station he chooses, Hampton Roads, Va., Mare Island, California and Newport, R. I.

Expression of Thanks.

I desire to thank all of
those persons who supported
me at the recent election.
The large number of suits,
and attachments on ac-
counts, brought by mer-
chants, forcible entry and
detractor cases and the hun-
dreds of other cases of dif-
ferent kinds brought before
a Justice in a City of this
size, tend to make the office
an unpopular one with a
certain class of people, if a
Justice does his duty. The
defeat of D. M. Jones, Jus-
tice of the Peace, when a
candidate for Mayor, of F.
S. Scott, former Justice of
the peace, for Municipal
Judge, and of my self, for
City Auditor, shows this
conclusively.

However, I have no apolo-
gies for doing my duty as
Justice while in office and
again thank all those per-
sons who stood by me.

Yours very truly,
11-6-11 B. O. HORTON.

CHILLICOTHE MAN DECLARED, "ALL MY RHEUMATISM GONE"

Suffered for years with pains in his joints, muscles and limbs; so nervous a sharp noise would give him a shock.

Declares the new root and herb remedy Drecto gave quick relief.

"I have had more ease the past week than I have known in years," are the words of that well known carpenter, Mr. A. Dettenbaugh of 423 N. High St., Chillicothe, O.

"My hands were so sore and fingers drawn up so bad that I could hardly pick up a board. My back was so stiff I could not bend about without severe pains. Every joint in my body was affected I believe and my muscles got hard and very painful. I became extremely nervous so that any noise near me seemed to shock my whole system and I could sleep but very little."

"I had taken so much strong medicine for the rheumatism that my stomach was all to pieces and my food would not digest but laid heavy in my stomach and filled me with sour gas, my bowels were bound up most of the time."

"It is marvelous how quick Drecto gave me relief, the pains are all gone from muscles and joints, so that I bend and stoop about and never have a pain. My bowels act regularly; I sleep fine every night and my stomach is strengthened again. Drecto is by far the best medicine I ever took and I strongly recommend it."

Drecto is composed of the juices and extracts of many different roots, herbs, barks and leaves which act on the stomach, kidneys, liver and bowels and purify the blood. It relieves constipation prevents gas forming in the stomach, increases the appetite, insures sound refreshing sleep, banishes all curd of the head and takes the pain out of rheumatic joints.

All good druggists now sell Drecto and it is highly recommended in Newark by Evans' Cut Rate Drug Store—Adv.

DR. PARKER'S TREATMENT RELIEVES SICK STOMACH

If you've been bothered with indigestion or constipation read the following experience of C. H. Kerns, 308 S. Hague Ave., Columbus, Ohio. He writes:

"For three years I suffered with the very worst case of indigestion and constipation so bad that I was compelled to give up my work. I tried everything that was advised without relief until one day a friend recommended Dr. Parker's Treatment. After using four boxes I was entirely well and am in perfect health today. I know many others who had the same experience and I believe Dr. Parker's Treatment will relieve the worst case if taken as recommended."

Dr. Parker guarantees his Treatment to relieve or your dollar refunded. Sold by all druggists—Adv.

ALHAMBRA
Branding Broadway.
Someone once wrote a poem about a homesick cowboy in Manhattan, who sat beneath the shade of a rubber plant and bemoaned his fate, longingly sighing for the plains and mountains of his beloved West.
"Big Bill" Hart—it seems unnatural to refer to him as William S.—is pretty well identified with the West by his famous Artercraft pictures, and it is conceivable that if he were to be stranded in the metropolis he might feel just like that.
However, Bill was once a Broadway actor—yes, he even played Romeo. And he can be perfectly at home on the pavements and under the incandescent glow of the now more or less darkened "White Way." But just from choice will Bill hit the trail for the big city.

Tully Marshall, Sydney Ainsworth, Edwin Stevens, Gertrude Claiborn, Betty Shadem, Elie D. Francis, Kate Lester, Roland Van Dam visits New Orleans at Mardi Gras time and seeks adventure among the gay throng of merry-makers, with a black domino over his street

He prefers the untamed West and the open lands, even if he does drive an auto these days and has put his Pinto into private life on a pension.
Still, a change is always welcome and in his latest Artercraft picture, "Branding Broadway," which was presented with brilliant success at the Alhambra theater yesterday, Mr. Hart travels to New York and we actually see him in a dress suit. This is the result of the trip made by Bob Sands, a cowboy, with some of his boon companions, to Whetstone, Ariz., one day. They all want a good time and when they find the only saloon in the town practically closed, the town having gone dry, the punchers wax wroth and proceed to tear things wide apart.
A double program is shown today.

Chasing Rainbows.
Gladys Brockwell pleased crowded houses at the Alhambra theater yesterday, when she appeared in her latest William Fox photoplay, called "Chasing Rainbows." As the waitress in a railroad restaurant Miss Brockwell creates one of the most effective roles of her long list of successes. The scenes are laid mostly in a typical rough western town where gambling houses and saloons are "wide open." Miss Brockwell

does more good in that town than a minister and a pair of six shooters combined could do. Wherever is trouble, there you find Sadie, fearless against wrong and injustice—a conqueror of lawless men.
This feature is seen today last time together with Wm. S. Hart in Branding Broadway.

The Crimson Gardenia.
The Alhambra tomorrow and Saturday offers a special feature picture in Rex Beach's super-thriller "The Crimson Gardenia," in which Owen Moore and Hedda Nova score. The cast which besides the two stars mentioned contained the following well known players: Hector V. Sarno, Sydney Dean,

The Four Flushers.
"The Four Flushers" a new Metro comedy-drama, with the dynamic Hale Hamilton as the star, will be the feature attraction at the Alhambra theater Sunday. It is a brilliant picture of an original story written especially for this popular star, and gives him such a role as has made him famous on the stage as well as the screen.
Mr. Hamilton in "The Four Flushers" plays the role of a hard-working young New Yorker who is tired of "just getting by" and who when he gets hold of a live tip on a big deal, sets out with might and main to equal the sensational history of the greatest financial geniuses.
Brays Pictograph is also shown.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

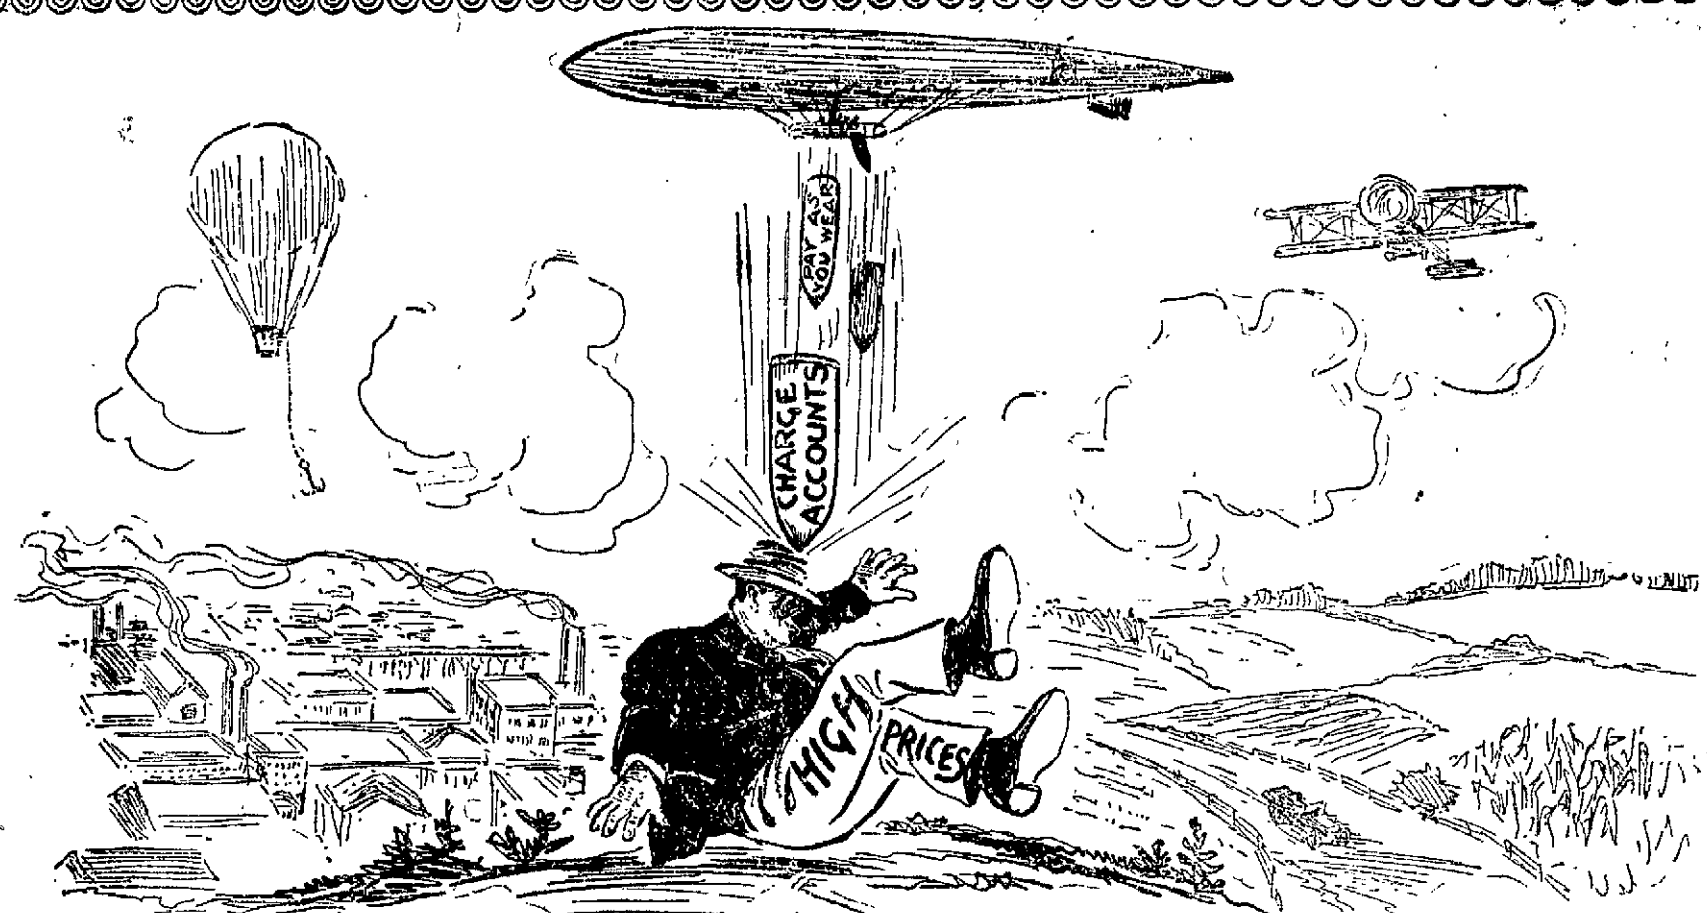

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisurated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisurated magnesia which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets, with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little bisurated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisurated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

WANTS OTHERS TO TRY REMEDY THAT GAVE HER HEALTH

"During nearly three years of illness," relates Mrs. W. P. Jones, who lives at No. 30 Crown street, Meriden, Conn., "I had tried many preparations and prescriptions without any improvement in my condition. My failure to find anything to relieve my suffering began to worry me and I was all but ready to give up hope when I heard of Dr. Williams' Pink Pills and their success in restoring general bodily health by enriching the blood.

"By this time my stomach was in such a condition that I couldn't eat a good meal without distress. I suffered from cramps for hours after eating with the result that I lost sleep and was always tired. My blood was so poor that I was numb in parts of my body. My limbs were sore and stiff and I had rheumatic pains in my shoulders. I became very nervous and restless.

"A few weeks after I commenced taking Dr. Williams' Pink Pills my blood became richer and it seemed only a short time before my whole body improved in tone. My stomach is stronger now and I can eat heartily without suffering from cramps or indigestion pains. I sleep well and the stiffness has left my limbs. I feel it a duty to recommend Dr. Williams' Pink Pills for they helped me when nothing else did."

A useful booklet, "Building Up the Blood," will be sent free by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or you can order them direct by mail, postpaid, at 50 cents a box, six boxes for \$2.50.

Beauty Answers By MADAME MARGES

MISS F. K. L.—Making the pores smaller has a direct and tremendous result in the elimination of wrinkles. The reason for this is that when the pores become smaller the texture of the skin becomes finer, and the tissues are thereby braced up. These skins are usually full of wrinkles. Just try this method once and you will realize that you have found a powerful wrinkle remover. Get a two-ounce package (50 cents' worth) of epol from your druggist, and mix this powder with one tablespoonful of glycerine in a half pint of water. Apply this cream very freely on the face every day, and you will be astonished to find the difference it will make in your appearance of age. It removes the thousands of small wrinkles, crows' feet and even the deep wrinkles. Try it.

"EFFY"—A glorious head-wash. Yes, here it is, and a wonder, too! Just dissolve a teaspoonful of eggol in half a cup of water, and use as a head-wash. You will be surprised at the remarkable cleanliness of your scalp and the glossiness of your hair, as a result. For twenty-five cents you can get at the drug store enough eggol to last for many weeks.

MISS M. O. N.—A really wonderful way, and the easiest and quickest way to remove superfluous hairs is to dissolve them. This is done by moistening the hairs with a safe solution, which you can get at any drug store for one dollar. This never leaves a scar or red spot, always works whether the hair is very thick or downy, and on the most delicate skin. It is the only safe way, and is exceedingly simple and quick.

His wild ride to get the troops to save the king and palace, his swing across on a rope from one burning building to the other, and the rescue of four women and children, his dive into the water-filled cellar, the capture of McManus, the chief of the rough neck gang in New York. The ride of the troops and the ride of Villars' bandits through the town of Murdoro are all things that make a person fairly tingle and thrill from the excitement of the spectacles. Parisian creation in silk negligees are things which are admired not only by ladies but by the opposite sex as well. In this A. S. Stern & Company in association with George Broadhurst have outdone themselves in the matter of beautiful negligees and stunning gowns and each change of wardrobe is admirably adapted to Miss Hammond's figure. The Auditorium will offer an exceptionally strong program for Sunday, besides the big picture, "The Trembling Hour" Mr. Fenberg has arranged a Song Recital in which his friend Earl Truax will be the bright particular star. I do not care what argument one may use for I have proven to my own satisfaction that with a conscientious effort on the part of any woman along these lines, she can develop herself to a marvelous extent. I am happy in the fact that I was chosen from among three hundred or more blonds of all types to portray the character of Daphne, the sleepwalker in "She Walked in Her Sleep" and as the part called for a "perfect figure" you may be sure that I was thoroughly sized up, measured and after donning several costumes, I was selected to portray the character. It would be a pleasure for me to advise any girl how to improve not only her figure but herself physically and I am sure that I can suggest a way to alter your defects. My figure was not always what it is today for I had defects which I speedily remedied.

The St. Louis Globe had the following to say regarding Mr. Truax's work: "His art has the quality of sympathy which communicates itself to his audience by means of exquisite style and sincere interpretation of his numbers." The picture at the Auditorium Saturday and Sunday is "Fuss and Feathers," a Paramount picture.

tunities are much greater in Ohio for state forestry than any of the other states, it is shown.

"The plan for Ohio would be to buy up much of the hilly land in southern Ohio, which now has a good stand of second growth timber and provide adequate fire protection for these areas," states Edmund Secrest, Forester at the Ohio Experiment station. "Reforestation may be carried out to a certain extent on these lands, as new plantings can be easily made."

Mr. Secrest points out that the future supplies of hardwood timber must come from forest areas largely controlled by the state as private forestry operations have been unsuccessful. The reforestation plan is being adopted by some cities, which are acquiring cheap, hilly lands and caring for them as forest parks.

Milady's Boudoir

Beauty of the Eyes.

If you would have beautiful eyes, avoid all sensations that detract from their expression. Remember when you are angry, jealous or grief stricken, the eyes are the tale bearers of your troubles. Beautiful eyes are wide open, not half closed and hidden under drooping lids. For women who want to be natural and honest, and to look upon the world with clear, open eyes have no tricks of the eyes.

Eyes have a power for good and evil according to the inspiration of the mind. A clear, honest thought opens the eyes and raises them just as forcibly as suspicious thoughts lower the lids and move the eyes slowly from side to side. Grief weakens the muscles and nerves by incessant movement. The expression of hate fastens the eyes directly ahead and strains their nerves and muscles almost to the breaking point.

Downcast eyes and sly looks give an

expression of languor, fatigue and age to the eyes. It has been said that a French woman of twenty has older eyes than an American of forty. The American woman is always anxious to learn, hence her eyes are always open wide, like those of a child. The wide open eye is never the eye of a coward, miser or a sneak.

Never mar the expression of the eye by allowing wrinkles. Do not insinuate by looks things you do not say. There is more expressed by a turn of the eyes than by any other feature of the face. Sorrow and severe suffering may be discovered by the expression of the eyes when every other feature is under control.

Use no tricks of expression with your eyes, for they should have only a language all of their own, expressing honesty, frankness and innocence.

Look for the Best.

Every man and woman on earth has some good quality, if you will only take the trouble to look for it.

Our Boys and Girls

It is difficult to tell which is the most troublesome time for both the mother and the little girl, hair dressing time or bath. Certain it is that the nerves of each are usually worn to a thread when these distressing periods are over.

A dear little one of my acquaintance goes gladly and freely through both these trying periods because her mother takes care to make them interesting and pleasant for her. On her last birthday she received a pretty little cut glass atomizer, filled with a sweet and not too heavy toilet water.

She was told that if she would go through the hair dressing treatment with patience and sweetness, she could have some of the sweetness in the bottle sprayed on her tresses.

The rise worked like a charm, for the little Miss found that there was no sweetness for her hair on the days when she fretted and sulked and scolded at hair dressing time.

GOVERNMENT TO ASK COURT TO CALL OFF STRIKE

Failure of Federal Officers To Carry Point Will Mean Long Drawn Out Strike.

Washington, Nov. 6.—Miners, operators and government officials, the three factions in the coal strike, apparently were resting today awaiting the outcome of court action at Indianapolis on the restraining order which was made returnable Saturday. Counsel for the miners will go into court and ask that all proceedings be dismissed while the government representatives will request that the temporary injunction be continued and that a preliminary order be issued to John L. Lewis, acting president of the miners' organization, to call off the strike.

If the court action results favorably to the government, thus ending the strike, prediction was made in some quarters that the country would be in for a prolonged cessation of a large part of the bituminous coal mine operations. Leaders of the miners have announced that the strike could be quickly settled if the restraining order were recalled. The government has refused to consider their proposal to withdraw the injunction unless the strike order was revoked.

The public has become more interested in the coal strike since cold weather has spread over a large part of the country and precautions were being taken to safeguard against fuel shortages. Some disquieting reports of low supplies of coal have been received from a few sections but the general strike situation remained about the same on the face of reports to Washington.

DISCOVERS PLOT FOR HUN REVOLT

Plotters' Scheme Included Union With Russian Soviet Forces Berlin Newspaper Asserts.

Berlin, Germany, Oct. 15.—Investigators for the Deutsche Allgemeine Zeitung of Berlin claim to have discovered plans for a communist uprising to depose the present German government and to establish a new one modeled on the Russian plan which would be associated with the present Russian Soviet system. The investigators assert that the proposed revolution was to be assisted and officered by Russian Bolsheviks and that the outlook is to have its beginning in the Ruhr coal district. The responsible newspaper, a warning so energetic that it is accepted in well-informed quarters as of more importance than the many rumors in circulation.

Munich, Brunschwick and other cities are claimed to be sub-centers for the movement. According to the paper Spartacists and Communists will be armed throughout Germany. The communists are said to count on destruction by whole groups of the national defense army and on taking them into their "red army." General fighting headquarters in the Ruhr coal district will be established in Brunschwick, already a Spartacist and Communist center, and a council government is to be proclaimed.

ARMY GETS TWO MEN ONE GOES TO BORDER

Carol C. Hatt yesterday enlisted in the army for service in the cavalry. He will be sent immediately to the Mexican border having asked for that assignment. Miller F. Varner is awaiting special authority from the adjutant general for assignment to a coast artillery band. Both men signed up at the army recruiting sergeant's office in the post-office. The sergeant has received instructions changing the regulations, making it easier for a minor to obtain legal proof of his age. The certificate of the father, mother or legal guardian as to his age may be witnessed by a notary public, justice of the peace, commissioner of deeds, postmaster or other United States official. The mayor, sheriff, chief of police, officer of the court, alderman, constable, marshal, by a priest or pastor, school superintendent, who must sign the paper with his title and address.

ARREST AUTO BANDITS FOR MANY HOLDUPS

Cleveland, Nov. 6.—Pursuit of a stolen "mystery car" early today resulted in the arrest of five men held to be the band which for two months has been operating in the East End. Police charge the men with nearly a score of holdups during the past week. The capture was made just as the bandits were about to hold up a gas service station, police say.

STRIKE GUARDS WEAR GOGGLES WHILE ON DUTY

Youngstown, Nov. 6.—Deputy sheriffs appeared at the entrance to the Youngstown Sheet and Tube company plant today wearing goggles as a protection against recurrence of "red pepper riots" by women which occurred Tuesday and Wednesday. Apparently discouraged by the arrest of 24 women yesterday, however, the women failed to appear today. A grand jury investigation of the riots will open Monday. The Carnegie Steel company today reported the opening of three more open hearth furnaces at its Ohio works, and another finishing mill at its Union works making a total of 11 out of 12 finishing mills at work in that plant. Another open hearth furnace opened at the Brier Hill Steel company, it was said. The mills report men returning at about 500 a day, the movement being largely confined to higher paid workers, especially tonnage men. Common labor, the mills say, is still holding out but the companies estimate that 25,000 men are now at work out of 36,000 in the city. A commissary has been opened by strike headquarters in the basement of a church.

Interesting Old Bible. One of the original owners of the Treacle Bible, living in the eighteenth century, had made notations on the fly leaf concerning "John, who was born on Friday the 10th of February, 1769, at a quarter after eight at night, was baptized at Crossgate church on March 16 following, by the Reverend Mr. Wheeler, who died of smallpox, 12th April, 1790, and was buried the next day at Crossgate church, aged eight weeks and five days." Other deaths, marriages and births were dated as far back as 1701-1702.

Conjugial Repartee. You ought to have married a fool. I am glad you think I did the correct thing.—Detroit News.

"Amen Corner." The phrase "amen corner" is said to have originated in London, where, at the end of Paternoster row, monks at one time finished their recitation of the "Pater Noster" as they went in procession on Corpus Christi day to St. Paul's cathedral. They began in Paternoster room with the Lord's prayer in Latin, continuing it to the end of the street, and then said "amen" at the corner of the row. As used in this country the phrase describes the corner of a church where the elderly members sit and pronounce the word "amen" at intervals.

The "White Feather." The expression, "He showed the white feather," has its origin in reference to game cocks. Pure-bred game cocks have only red and black feathers, but crossbreeds have a white feather in the tail. The slightest impurity in strain is said to destroy the bird's pluck, hence the white feather is used to denote cowardice.

Combing Won't Rid Hair Of Dandruff

WITH BREAD AND SALT JEWISH POLES WELCOME HEAD OF POLISH REPUBLIC

Jewish Poles offering bread and salt to General Pilsudski.

In welcoming General Pilsudski, acting president of the new republic of Poland, Jews of the delivered countries made use of the ancient custom of offering bread and salt as a token of friendship and hospitality. General Pilsudski graciously accepted the offering, and assured the givers that the friendship they had thus expressed would be returned in equal measure.

REPUBLICAN GETS BIG MAJORITY IN KENTUCKY RACE

Edwin P. Morrow—Elected Governor With Majority of 29,992—State Prohibition Still In Doubt.

Louisville, Ky., Nov. 6.—On the face of unofficial returns from all but one of the 120 counties of the state, Edwin P. Morrow, Republican, swept himself into the office of governor of Kentucky by a majority of 29,992 votes over Governor James D. Black, Democrat, in Tuesday's election. This is the largest plurality a Republican candidate ever received in the state, according to Republican state headquarters which claim that Morrow's majority will exceed 40,000.

Interest today, however, did not center so much upon the gubernatorial election, but upon the state-wide prohibition amendment. Returns came in slowly on this proposal and led S. N. Palmer, superintendent of the Kentucky anti-saloon league, to predict that the result might not be known for several days.

Only 40 counties out of the 120 had been heard from early today, these showing a majority of 16,353 votes against the amendment. "This does not mean that the wet have won however," Mr. Palmer asserted. He said that of 80 counties to be heard from a great majority are dry.

Thirteen of the 40 counties gave the wet majorities totaling 20,065. The remaining 27 gave dry majorities totaling 9,682.

An interesting feature of the gubernatorial election was a statement of Governor Black in which he blamed the liquor interests, pro-Germans, his failure to remove certain appointees of former Governor Stanley and President Wilson for his defeat, which he considered. As regards the President he said that whether the action of Mr. Wilson in writing his coal strike letter was proper or improper, it hurt his candidacy in that it caused the striking Kentucky coal miners to go Republican.

Domestic Cat Distinct Species. The Egyptian cat seemed to have a good claim to the honor of being the ancestor of the domestic cat, both on account of its tapering tail and size, in which it bears a great similarity to the domestic cat. But peculiarities which were discovered in its dentition were sufficient to remove its claim. So it seems best to consider the domestic cat a distinct species.

RUSSIAN READY TO MEET BOWSER

Cossack Soldier - Wrestler
Here For Bout Tonight
With Newark Mat Ath-
lete — Bowser Is Out-
weighed.

Mat fans are on the anxious seat to-
day for this evening the local champ
meets one of the top notchers in the
person of the Siberian giant, Ivan
Michaloff, at the Auditorium theater.

IVAN MICHALOFF.

The big Russian Cossack looks invin-
cible, but then he has a handicap in
his match with Bowser and to secure
the big end of the receipts must get a
decision over the Newark champ by
pinning his shoulders to the mat
within an hour.

The foreigner weighs 225 pounds and
the local grappler 175. Bowser has
handled heavy men before so it will
not be a new experience for him when
he tries conclusions with Michaloff.
The former is in fine fettle and should
put up a wonderful battle. His sys-
tematic training has hardened him un-
til he looks almost invincible. There
are those versed in the game who are
willing to wager a small sized fortune
that the man has not yet been found
who can best Bowser at equal weights.
The champ is in demand and has had
any number of splendid offers to show
his prowess on the mat in wrestling
houses in other cities and he has al-
ready signed for several and will be
heard from before the season is over.

Michaloff is every inch an athlete
and has met some of the greatest mat
artists in the world and gave a good
account of himself. The match tonight
will be well worth while and will be
interesting and exciting from start to
finish and the fans are securing stage
reservations so that they may better
enjoy it.

The preliminaries are all arranged
and Bowser promises some surprises

when his boys are seen in action this
evening. There will be several classy
events which will be well worth wit-
nessing.
The curtain raiser will be staged at
the usual time between two clever light
weights.

ARREST OF ALIEN REDS IN CLEVELAND THROWS LIGHT ON NATION WIDE BOMB PLOT; MANY MARKED FOR DEATH

Reds arrested in Cleveland. Left to right above: Theodore Leovnar and Steve Matejka. Below: Mrs. Matejka and George Zaeder. Center: Part of material seized at time of arrests. In the foreground is a loaded bomb; immediately behind this is a knife. The black bar partially hidden by the knife is an unfinished bomb. In the background is shown a box containing an automatic revolver and shell cases.

The recent arrest, in Cleveland, Ohio, of a group of anarchists, who were caught with explosives and deadly weapons in their possession, throws new light on a nation-wide bomb plot which had for its object the murder of hundreds of officials and other notables and the overturning of the government. Four of the Reds who were arrested, together with some of the deadly weapons found in their possession, are shown in the accompanying layout.

HEARS SUIT TO TEST WAR-TIME PROHIBITION

Louisville, Ky., Nov. 6.—Judge Walter Evans of the federal district court here on November 12 will hear arguments on a suit to test the war time prohibition act and the Volstead enforcement law. He set this date following the filing of the suit late yesterday by attorneys William M. Bullitt, Louisville, and Levy Mayer, Chicago, on behalf of the Writ and Taylor and the Brown and Forman distilling companies of Louisville.

TWELFTH SAFE STOLEN WITHIN ONE MONTH

The defendants are United States district attorneys W. V. Gregory and Elwood Hamilton, collector of internal revenue for Kentucky. The person which seeks to prevent interference with sale of new, a million gallons of tax-paid whiskey owned by the companies, charges that title one of the enforcement measure relating to the duties of the revenue department to prevent the manufacture and sale of whiskey is unconstitutional in that congress violates the tenth amendment by exercising general police power over a subject matter not within its jurisdiction. Further it said the war time prohibition act violates the fifth amendment which provides that the government shall not take private property with just compensation.

How often do you get a satisfying shave?

Henry Clay

*Thought more
of a Shave
than a Vote*

THE unswerving self-respect that made Henry Clay say he would rather be right than be President, was reflected in his insistence on a cleanly shaven face.

In one hard fought campaign when political differences were making life-long enemies, Clay's barber, Jerry Murphy of Lexington, stoutly refused to vote for him, yet Clay would not withdraw his patronage, rightly deeming a shave under Jerry's well-balanced blade worth something more than a vote. And this fine, old-time razor which Clay would not give up is today even more completely the choice of the man who wants a *real shave*—because to its time-proven perfections have been added the *safety*, the *extra-convenience* of the guarded and double-edged

SMITH REVISES PREDICTION ON LIQUOR PROPOSAL

Crabbe Act Is Defeated on
Referendum and Vote on
Other Questions Are
Close.

Columbus, Nov. 6.—Late returns to-day from Tuesday's prohibition election in Ohio seemed to shatter the election night prediction of Secretary of State Smith that the dries had carried the four prohibition proposals voted upon by majorities ranging as high as 75,000.

Unofficial returns from 59 counties, including all of the wet centers and big cities, showed wet majorities on all four proposals, and unusually large wet majorities against the Crabbe prohibition enforcement act and ratification of national prohibition.

Basing his assertion on late official returns from 38 counties, Secretary of State Smith said first dry victory and estimates had been much too high. State dry headquarters this morning admitted the probable defeat of the Crabbe bill, said the vote was very close on ratification, but insisted that the repeal of state-wide prohibition and the 2.75 percent beer amendment had been defeated by large votes.

L. H. Gibson, wet campaign manager, declared the Crabbe act overwhelmingly defeated and ratification decisively so.

Fairly complete unofficial returns from 59 of the 88 counties gave the wet a lead of 14,000 on the repeal amendment, of 27,000 on the beer proposal, of 48,000 on ratification, and of 73,000 on the Crabbe bill.

The missing 29 counties last year gave dries a narrow margin, enough to wipe out wet leads on the repeal and beer amendments. In order to overcome the wet lead of 48,000 on ratification, however, election experts pointed out that the dries would have to gain 16,000 in the missing counties over last year. To overcome the wet lead of 73,000 on the Crabbe act was regarded by the experts as impossible.

James A. White, manager of the Ohio dry federation, this morning refused to concede that the dries had lost the Crabbe act or any of the prohibition proposals voted upon Tuesday, although at his headquarters it was admitted earlier that the Crabbe act probably had been defeated.

"The vote on the Crabbe act and on ratification may be close, but the dries will have a majority on them," Mr. White said, adding that the dry majorities on state-wide prohibition and the 2.75 percent beer proposal would be large. "Returns which came in this morning show that the dry vote on the Crabbe act is running very well in the remaining counties," he said.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases, where the suffering and agony was intense and pitiful and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels. It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the tortments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed Evans' Drug Store to guarantee it in every instance.—Adv.

For Women Not Easily Pleased

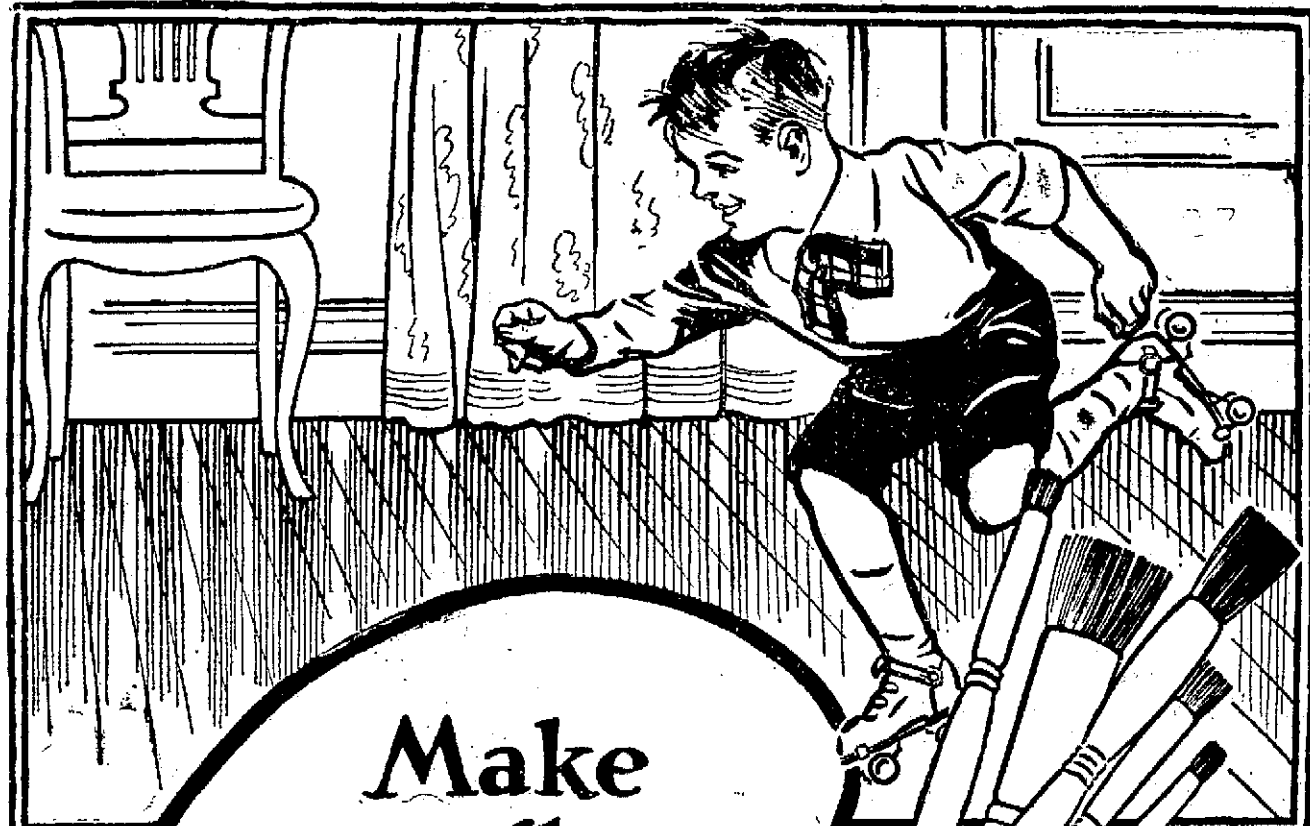

Women are pretty severe critics of shoes. Here is a new Walk-Over shoe, suiting many of the most critical. It pleases women who won't wear high heels and women who won't wear low heels. It has a Cuban heel on a street-boot so girlish-looking that a woman just reaches out for it. We have a great variety of other Walk-Over models.

Make your floors BOY-PROOF

We love our boys, but they sure are "tough customers" to turn loose in a well-kept home.

Romping, tussling, musing things up, wearing things out, "rough housing" generally, are all mere incidents in the life of the red-blooded, growing boy.

Your floors need an antidote—so here's

SPARTANA VARNISH STAIN

It's a "tough customer," too. Made of high grade varnish and Marietta Stain—the one to give strength to resist wear, the other to give permanent richness of color—it's a splendid combination of beauty and durability.

You apply it just as you buy it. An economical finish for floors, woodwork, scuffed furniture.

Have a try at it. There's pleasure as well as profit in it. Come in and be shown.
